

ACTIVE TRANSPORTATION REPORT CARD 2022

In February 2014, Stratford City Council adopted our first Bike and Pedestrian Master Plan. This plan was to be used as a guide for the development and management of our bikeway and trail connections. An important action for understanding Stratford’s progress in creating more robust active transportation networks is to report annually on our progress, and ATAC (Active Transportation Advisory Committee) has taken on the task in the form of this report card.

In 2023 the City’s new Master Transportation Plan (MTP) was adopted. This plan integrates planning for active transportation within the overall plan, with a focus on Vision Zero principles.
