Architectural Description: a larger red brick structure with a curved roof over the main portion of the building. The front entrance section is a two storey rectangular portion with a flat roof; two entrance doors on the left and two six paned windows on the right; second floor; has four multi paned windows; right side; two multi paned windows on each floor. The right hand wall of the arena is solid brick with pilasters and no windows; the left side has a two storey rectangular brick section with two entrance doors and two multi paned windows to the left of the doors and four multi paned windows upstairs;

beside this to the left is another two storey brick section with no openings; the arena section on the left is clad in a grey finished material.

The arena is an important building in Stratford. It is the centre of the sports activities and is important to the social and cultural history of the city.
