Purpose and Effect of Application

The purpose of this application is to request relief from the City of Stratford Comprehensive Zoning By-law to permit a parking area and internal circulation layout associated with a proposed industrial development, within a required 7.5 metre exterior side yard which is otherwise not permitted.

The effect of this application is to facilitate a proposed industrial development consisting of two buildings with approximate gross floor areas of 8,522 m² and 5,690 m², together with associated parking areas, internal drive aisles and landscaped areas. The applicant is proposing parking spaces and a parking aisle within the required 7.5 m exterior side yard setback; however, the proposed site plan includes a 3.0 m wide landscaped planting strip between the parking area and the unopened C.H. Meier right-of-way.

Variance Requested:

Table 5.3.2 (iv): to allow parking spaces and a parking aisle with a setback of 3 metres from an exterior side lot line whereas a setback of 7.5 metres is required.

Other Planning Applications: The lands are subject to Site Plan Application SP01-26. The site plan includes building layouts, parking and three proposed access points from Douro Street.

The Committee of Adjustment forms its opinion through its detailed review of all material filed with an application, public feedback prior to the meeting, deputations made at a public hearing and a report from staff.
