

# APPLICATION FOR DEMOLITION CONTROL

## APPROVAL PROCESSES

There are three processes that may apply to a residential demolition, as outlined below.

### **1. DEMOLITION CONTROL** (By-law 138-2019 & Section 33 of the Ontario Planning Act – this application form)

Demolition Control applies to the demolition of any residential building within the Demolition Control Area, which includes the entire City of Stratford. Demolition Control also applies to any former residential dwelling that has been converted to a non-residential use. Any residential building or any building containing one or more dwelling units requires demolition control approval before a demolition permit can be issued by the City's Chief Building Official to physically remove the structure. The purpose of demolition control is primarily to prevent the premature loss of viable housing stock and the creation of vacant parcels of land. Demolition Control does have related benefits of protecting the appearance, character, and integrity of residential neighbourhoods and streetscapes; preventing the premature loss of municipal assessment; retaining existing dwelling units until redevelopment plans have been considered and approved; and ensuring that redevelopment occurs in a timely manner, where proposed. Where a proposed residential demolition is exempted under certain criteria, demolition control approval is not required but an exemption must be obtained from Development Services.

### **2. HERITAGE PERMIT APPLICATION** (Ontario Heritage Act)

The City has a responsibility to conserve cultural heritage resources. Where demolition is proposed on a property that is designated under Part IV (Individual) or Part V (Heritage Conservation District) of the Ontario Heritage Act, the submission and approval of a Heritage Permit Application is required. A Heritage Impact Assessment and/or Conservation Plan may be required to support the application. Such applications must be considered by the Municipal Heritage Committee (Heritage Stratford) and Stratford City Council. Where demolition is proposed on properties that are listed as non-designated property of cultural heritage value or interest on the Municipal Heritage Register, the owner is required to give council at least 60 days' notice in writing of the intent to demolish. During this time, council may choose to designate the property to provide protection from demolition. Where properties are listed on the Heritage Stratford Inventory of Historic Buildings, planning staff will conduct a site visit to confirm the cultural heritage value and/or interest of the property.

### **3. DEMOLITION PERMIT** (Building Code Act)

The purpose of this permit is to enhance public safety and to ensure building services are disconnected in a safe and appropriate fashion prior to the City issuing approval for the demolition. It is also to ensure that the site will not have a negative impact on the surrounding properties post demolition. Demolition Permits are issued by the City's Chief Building Official. Please contact Building Services at 519-271-0250 x345 for more information and for the application procedure.

# DEMOLITION CONTROL PROCEDURE

## Demolition Control Exemption

Where the proposed demolition of a residential building is within the Demolition Control Area but meets one of the Exemption Criteria (outlined in Section 4 of this form), demolition control approval is not required. However, the applicant must obtain approval of a Demolition Control Exemption, prior to issuance of a demolition permit by the Building Division.

If the property qualifies for an exemption, please check the box that states "Applying for Demolition Control Exemption" at the top of the form and complete the all relevant sections on the form as outlined in Section 1. Also include the required plan and submit any supporting documentation (if applicable). Review and approval of a Demolition Control Exemption may take up to 7 business days.

## Demolition Control Application

Preliminary Review:

- a) Where demolition control approval is being sought for a building that is designated under Part IV or Part V of the Ontario Heritage Act, or is listed as a non-designated property of cultural heritage value or interest on the Municipal Heritage Register, or is listed on the Heritage Inventory of Historic Buildings, the applicant should consult with the City's planning staff prior to application submission to determine proper processing requirements. Note that any required heritage approvals must be granted prior to deciding the demolition control application.
- b) Where demolition control approval is being sought to facilitate a new development, the applicant should check at this time to determine whether a site plan application\* and/or building permit will be required. If a site plan application is required, the applicant should discuss the proposal with Planning staff and/or the Building staff for building permits. A site plan application and/or building permit application should be filed prior to or concurrently with the demolition control application to Development Services.

\*Note: A site plan application is required for the construction of a new building or structure, an addition, or alteration to an existing building or structure, which has the effect of substantially increasing its size or usability, or for the establishment of a commercial parking lot or sites for 3 or more trailers. It is not required for the construction of a farm building and, with certain exceptions, a single detached dwelling, a semi-detached dwelling or a duplex.

**Demolition Control Application Submission and Process Summary:** (see attached Demolition Control Flow Chart for more information).

1. This application must be completed and submitted (first residential building and each additional residential building), as noted in the schedule above. The application form must also be accompanied by one (1) copy of an up-to-date property survey or an accurate site plan drawn to scale in metric, such as 1:250 or 1:500 showing:
  - a. The true dimensions and bearings of the property
  - b. The location and dimensions of the residential structure(s) to be removed together with the location and dimensions of any accessory buildings and structures. Show also any buildings proposed to remain
  - c. Existing and proposed elevations, drainage slopes and gradients.

2. After receipt of the form, a staff member will circulate the application for a period of 14 consecutive days to the following departments, for comment:
  - a. Building staff - to determine the condition of the residential building(s) proposed to be demolished, if no redevelopment is proposed via a building permit and/or site plan application (if applicable). The application form requests authorization for a City Building Inspector to enter the property and have access to the building(s) for the purposes of carrying out an inspection.
  - b. Planning staff - to determine if the property is a significant cultural heritage resource, and if so, identify the required level of conservation and proper processing requirements. Should the property be designated under the Ontario Heritage Act, the consideration of a Heritage Permit Application seeking approval of a demolition, will be required before a decision on the Demolition Control Application can be made.
3. Concurrent with the demolition control application review, Planning staff may review the associated site plan application and the Building staff may review the building permit application for the redevelopment of the property, if applicable.
4. If a Heritage approval is required, this must be granted prior to the City's consideration of the demolition control application.
5. Upon review of all relevant issues, a staff recommendation will be made on whether or not the proposed demolition is supported, supported subject to standard approval conditions, or opposed by the Development Services Department. The applicant will be advised as to the department's recommendation.
6. Depending on the circumstances, as outlined in By-law 138-2019, the application will either be considered and decided by City Council, or be considered and decided by the City's Chief Building Official (see attached Demolition Control Flow Chart for more information).
7. The Planning Act prescribes an appeal procedure whereby the applicant may appeal the City's decision to the Local Planning Appeal Tribunal.

**10. APPLICANTS AGREEMENT WITH STANDARD APPROVAL CONDITION**

- This section should only be completed if redevelopment of the site is proposed via the submission of a site plan application and building permit application.
- If owner agrees, the application will be decided by the Chief Building Official, unless the property is listed as a non-designated property property of cultural heritage value or interest and not designated under the Ontario Heritage Act, RSO 190, c.O.18.
- If the owner does not agree, the application will be decided by City Council.

I, \_\_\_\_\_, the registered owner of the property that is the subject of this application, hereby agree to the imposition of the following standard conditions as part of the approval of this application:

- a) That the owner obtains final site plan approval for the proposed redevelopment.
- b) That the owner obtains a building permit(s) for the proposed redevelopment

Upon satisfaction of subsections a) and b), the City’s Chief Building Official may authorize and issue a demolition permit under subsection 33(6) of the Planning Act. The demolition permit will be subject to the following condition:

That in the event that construction of the proposed redevelopment is not substantially complete within 2 years of the date of issuance of the demolition permit, the City Clerk may enter on the collector’s roll, to be collected in like manner as municipal taxes, \$20,000 for each dwelling unit contained in the residential properties in respect of which the demolition permit is issued and such sum shall, until payment thereof, be a lien or charge upon the land in respect of which the permit to demolish the residential property is issued.

Signature of Owner: \_\_\_\_\_ Date: \_\_\_\_\_

**11. ACKNOWLEDGEMENT**

As the owner of the subject property, I fully understand that:

- I am required to post a City-issued sign on the subject property in a location to be approved by the Chief Building Official within 24 hours of the approval of this application, should it be granted by the City, and that it shall be maintained in a state of good repair and remain in place until a demolition permit is issued and the building is substantially demolished,
- The submission of this application constitutes consent for authorized City staff to enter upon the subject property for the purposes of conducting a property and building inspection that may be necessary for the evaluation of this application.

Signature of Owner: \_\_\_\_\_ Date: \_\_\_\_\_

**12. AUTHORIZATION OF OWNER FOR AGENT TO MAKE THE APPLICATION**

If the applicant is not the owner of the land that is subject of this application, the written authorization of the owner is required, as below:

I, \_\_\_\_\_, the registered owner of the property that is the subject of this application, hereby authorize \_\_\_\_\_ to make this application on my behalf.

Signature of Owner: \_\_\_\_\_ Date: \_\_\_\_\_

**13. AFFIDAVIT**

I, \_\_\_\_\_, of the City/Town/Township of \_\_\_\_\_, in the County/Region of \_\_\_\_\_, solemnly declare that the information contained in this application is true, the information contained in the documents that accompany this application is true and that the owner as of the day on which this application is made has unconditional ownership of the subject lands and has disclosed any agreements or encumbrances that apply to the subject lands.

**Signature of Owner/Applicant:** \_\_\_\_\_

Declared before me at the  
City/Town/Township of \_\_\_\_\_ in the County/Region of \_\_\_\_\_  
this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_\_.

**Commissioner of Oaths:** \_\_\_\_\_
