Chief's Message

On behalf of all members of the Stratford Police Service, I am pleased to present the 2023 Annual Report on policing.

This report provides an overview of our response to calls for service and community engagement initiatives in the City of Stratford, Town of St. Marys and Municipality of Perth South

The policing environment continues to evolve with the daily issues being faced by members of the service being more complex, involving more social determinants of health ie mental health/addiction/homelessness, more reliant on the integration of technology and, as a result, the cost of delivering the service continues to increase. As part of our cost containment strategies, we need to be open to alternate forms of service delivery that will be more efficient, as effective and increasingly accessible. Our communities are changing. The public has high expectations for their service providers, and we need to be prepared to implement initiatives that continue to build trust in the profession and be reflective of the communities we serve. I am continually grateful for our members' commitment and dedication to addressing crime and enhancing safety in our communities. On behalf of the Stratford Police Service, I wish to thank the members of the Stratford Police Service Board and the members of our Community Policing Advisory Committees in St. Marys and Perth South for their continued guidance, governance, and oversight. Their work, on behalf of all residents, is vital to ensuring effective service delivery that promotes public safety.

The coming years will see more change in our communities which will require policing to continue to adapt and modernize. I believe that the Stratford Police Service can and should be able to deliver the best police service to our resident and visiting populations that addresses crime and disorder issues that are trending locally. To that end, I am always available to receive your constructive feedback and thank those individuals and organizations that have shared their opinions on our service delivery and our community safety and well-being.

The partnerships that have been developed between organizations delivering service within Perth County has allowed us to leverage resources and budgets to make that we are all optimizing our service delivery within our individual mandates and fulfilling our collective legislative requirements. We are stronger together than when we go it alone.

Thank you for taking the time to read the 2023 Stratford Police Service Annual Report and I welcome your input for the coming years.

G. A. Skinner
Chief of Police
Stratford Police Service

Complaints Against Police

Accountability and transparency go a long way to building trust between the public and the police. There are two independent civilian investigative agencies in Ontario whose mandates are to investigate the conduct of police officers or the policies of the police service.

The Office of the Independent Review Director (OIPRD) now known as the Law Enforcement Complaints Agency (LECA) investigates all complaints where a member of the public alleges that an officer has committed misconduct under the Police Services Act or that the policies or services provided by the police service did not comply with the Act.

“Police officers are expected to act with honesty and integrity and not abuse the extraordinary powers and authority they are granted. Police officers are also expected to treat people with respect and to act in a manner that does not discredit or undermine public confidence in the police service.” www.oiprd.ca

The Stratford Police saw the number of public complaints increase drastically during the COVID-19 epidemic peaking at 20 for the years 2021 and 2022. There was a slight decrease to 18 in 2023. Of the 18 complaints received, 5 were screened out by OIPRD as not with their mandate or not in the public interest to investigate and 13 were referred to investigation. Of the 13 complaints that were investigated 8 alleged Discreditable Conduct, 3 alleged Neglect of Duty and 2 alleged Unlawful Exercise of Authority. In all 13 cases the complaints against the officer were found to be unsubstantiated after investigation meaning there was no misconduct on the part of the officers.

The second independent civilian investigative agency in Ontario is the Special Investigations Unit which investigates incidents involving police officers where there has been death, serious injury or allegations of sexual assault where there may be criminal conduct on the part of the officer(s).

There were 2 SIU investigations in 2023. The SIU terminated one investigation after the body worn camera evidence proved that there was no evidence to support the allegation. The second investigation resulted in the officer being charged under the Criminal Code of Canada and that case has been resolved through the courts.
